**What is Paratransit:**  
The Americans with Disabilities Act (ADA) guarantees people with disabilities the same access to public transportation as people without disabilities. Many residents with disabilities can ride the local fixed route buses. People with disabilities who cannot use public transit because of their disability can use the ADA Paratransit Service.

The ADA Paratransit Service is a curb-to-curb, shared ride service, which operates within ¼ of a mile from fixed route bus service stops. All rides must be scheduled ahead of time. Passengers usually ride with others who are traveling in the same general direction, and drivers may often stop to pick up or drop off other passengers on route.

**Am I eligible?**  
Paratransit eligibility is based on an individual's functional ability to use the fixed route system; it is not based on a medical diagnosis or meeting the broader ADA definition of "disability." Simply having a disability does not make you eligible for complementary paratransit under the ADA. The ADA Paratransit Service is for residents riders whose disabilities prevent them from using fixed route bus service.

To be eligible, you must:

- meet the disability guidelines of the Americans with Disabilities Act
- cannot access the service's fixed route bus due to your disability

**Eastern/Urban Loudoun County:** Loudoun County Transit will provide complimentary paratransit. You must be a certified Metro Access rider or certified by ADAride to use Loudoun County Transit ADA Paratransit Service.
